

Error: Start_IP.exe - Entry Point Not Found. The procedure entry point @Udmitmsecurity ... could not be located in the dynamic link library ITM_DBCommUnit.bpl.

The DCIMatch update has replaced some previous ITMProcess files by updated files that are incompatible with your ITMProcess version.

Executing the ITMProcess setup again is not enough. The setup cannot replace newer files by older files.

Solution:

Open the readme.txt file of the last DCIMatch setup you have executed.

Locate the following section:

ITMProcess files:

Folder DatacolorCommon Files

Delete these files from DatacolorCommon Files

Author: Datacolor
