

Units kg/l (liquor ratio) and °C/min don't appear in the pop up menu of the ITMRegistry. Why ?

Units are loaded in function of their configuration.

Unit °C/min must be configured as : °C / min - empty Unit °C/min must be configured as : °C / min ->

Unit kg/l must be configured as : kg / l - empty

Unit kg/l must be configured as : kg / l -> ^ ^ ^ ^ ^ ^
